## Thermostat Private Label Program

Private labeling Honeywell thermostats is one of the best ways to bring brand recognition to a dealer's business and let homeowners know who to call for their future HVAC needs. Honeywell offers up to three lines of customization for dealers to include their company name, phone number, and Web address. With low minimum order quantities and the option of direct shipment to your customer site, you will quickly see the benefits of the Honeywell Private Label Program.

## Legal Terms and Conditions For Thermostat

1. Honeywell's Thermostat Private Label Program offers contractors the service of imprinting thermostats with their company information. This could be the dealer's name, telephone number and/or e-mail address that would be imprinted on the thermostat cover.
2. All private label orders must be placed in case quantities of 12 units for thermostats and 6 units for kits. Order quantities must be in increments of case quantity. **Private label orders are non-cancelable.**
3. New label setup requests will be reviewed and approved within **5 business days**, providing all program conditions are met.
4. Private label thermostat orders require **8 business days** or less production time for orders under 360 units or **15 business days** production time for orders greater than 360 units prior to shipping. The lead time begins when the submitted label and part number(s) have been approved and Honeywell has received a purchase order from the distributor for the product.
5. All private label orders will be shipped directly to the Distributor/Wholesaler. Honeywell will not hold any private labeled product inventory.
6. Any inventory in the channel (in the factory, in the warehouse or in transit) is the responsibility of the Distributor/Wholesaler. Honeywell will not be held liable.
7. Any change in the label will be treated as a new label setup and the approval process must be followed in total. Coordination will be required for the transition, including purchasing existing stock of custom parts and/or finished devices.
8. All private label requests must conform to the standards set by Honeywell. Honeywell reserves the right to deny any private label request at its own discretion.
9. By ordering private labeled products/units, you are agreeing to the terms stated in this program description.
10. Honeywell reserves the right to change or cancel this program without notice.

By clicking on the "accept" button below, I state that I have read, understood and agree to all the terms of the Honeywell Private Label Program including the lead times, order quantities, any label setup charges and per unit costs that may be associated with the program.

## Step 1: Create Text Thermostat Label

Step 1 of 4

Account # 154474 -

Honeywell T Series thermostats have been redesigned with sleeker, slimmer aesthetics. With the new thermostat footprint, we've also reformatted options for private labels, which include options for two or three line labels. If you want to place private label orders for the new T Series thermostats, please follow the steps below to set up your label type choices.

### Label Type Choices:

### Example:

#### T Series:

- Two line label for T Series – up to 36 mm in length:  
First line in 7 point size.  
Second line in 10 point size.
- Three line label for T Series – up to 36 mm in length:  
All three lines will be displayed in 7 point with first line highlighted in bold.

### Step 3: Confirm Your Label

Step 3 of 4

Your Private Label will appear as below:

**Rich Heat & AC**  
1-800-111-2222  
www.richhac.com

**Are you sure your label information is correct?**

You will not be able to modify your label after submission.

If label requires contractor pre-approval, please return to the preview page and utilize the draft button functionality. You will receive an email with an image link that you can forward to your contractor and instructions on how to return to this site to edit/submit the label to Honeywell once you have received contractor input.

## Private Label Created Successfully!

You will receive an e-mail response within 5 working days. Please contact your Honeywell Sales Representative if you have any questions.

**Continue to Step 4 if you wish assign a part number to your new private label.**

Continue

**Honeywell**

Lastly select the Honeywell Part numbers from the list and create your customer part numbers and submit.

**Step 4: Part Number(s) Setup**
**Step 4 of 4**

---

Create a part number for your new Private Label

Account Number	Label Image	Description
151474	<b>Rich Heat &amp; AC</b> 1-800-111-2222 www.richhac.com	Rich Heat & AC 1-800-111-2222 www.richhac.com

**Email Confirmation**

**Email Id**

**Second Email ID**

Second Email address may be used to have purchasing agent or someone else notified of part setup approval by Honeywell.

**Important**

The part numbers you set up must be unique to each customer and each product. (e.g. TH8110CLIMATRON)  
 Maximum of 18 characters – upper case; no spaces (e.g. TH6320WF2003ACME)  
 Do not use Honeywell part number(s) as your customer part number(s). We suggest using a variation such as the examples above.

Honeywell Part # - Description	Customer Part #
<input type="text" value="-----Select-----"/> ▼	<input type="text"/>
<input type="text" value="-----Select-----"/> ▼	<input type="text"/>
