

## First Alert Indoor Camera

Keep an eye on what matters most

Protect your home with the First Alert Indoor Camera, which allows you to monitor the interior of your home through live or recorded video. Keep an eye on pets, kids, and guests day or night with crystal-clear 2K high-resolution and night vision.

Equipped with advanced event detection capabilities, ensuring that activity is accurately identified—whether it's a person, a pet, a sound, or a vehicle.

Through the app, you can livestream and view footage, and select the notifications you want to receive so you can keep an eye on what matters most. Receive alerts directly to your phone and use 2-way audio to hear and speak to others.

The First Alert Indoor Camera features a built-in privacy shutter you can control manually or by using the app or security panel. The camera captures 1080p video and offers privacy assurance with the automated Privacy Mode, simply close the shutter when you don't want the camera to be activated. Connect directly to Wi-Fi for easy setup and use.

Awarded for outstanding design

## Features & Benefits

### Privacy Mode & Built-in Shutter

Open or close the shutter from the app or on the camera for privacy assurance

### High-Resolution 2MP Camera with WDR

High-resolution live and recorded video to see the details you need

### Advanced Event Detection

Detects people, pets, and vehicles, reducing the unnecessary notifications so you'll be notified about things that matter most to you

### Stylish, Compact Design

Sits on a shelf or table or can also be wall and ceiling mounted

### Supports Smart Home Connectivity

One app gives you control of your connected home

Record events inside your home when you are away

Remote check-in on children or pets

Keep on eye on elderly family members

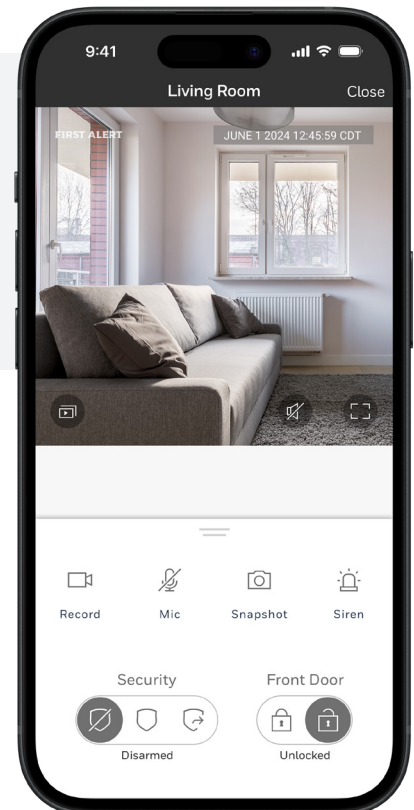

Monitor people in your home like renovation or contract workers

Stay connected with babysitters or pet sitters

### Resideo Total Connect 2.0 App for Homeowners

Stay connected with HD video viewing and advanced event notifications, including an integration of intrusion and video security using one app with built in tutorials.
