Awarded for outstanding design

Advanced technology for advanced features

With advanced event detection, VX Series products differentiate between people, vehicles, animals, and, for outdoor cameras, packages — eliminating false alarms and notifying homeowners about things that matter most.

The VX Series integrates with the ProSeries All-in-One Panel PROA7PLUS and Wireless Touchscreen PROWLTOUCH offering on-screen video streaming.

Subscription-Based Storage Plans

A storage plan is required for the First Alert VX Series doorbell and indoor and outdoor cameras. A wide variety of video storage plans — from a single device to a full security system — allow you to customize to any application and create ongoing revenue streams. Each plan includes all of the features and capabilities including intelligent event detection, sound detection, general-purpose motion detection, rich notifications, video event clips, and more.

PLAN	ORDER ITEM	DESCRIPTION
VX Series One-Device 30-Day Video Storage	AN5218	Enables advanced event detection and notifications Supports (1) VX Series device 1,500 clips per camera
VX Series 7-Day Video Storage	AN5206	Enables advanced event detection and notifications Supports (4) VX Series, (8) Total Connect, (6) Legacy cameras 350 clips per camera

VX Series 12 Device 30-Day Storage	AN5222	Enables advanced event detection and notifications Supports (12) VX Series devices, (8) Total Connect, (6) Legacy cameras; 350 clips per camera

First Alert HD Outdoor Camera

The outdoor camera offers a comprehensive set of video surveillance capabilities for the self-monitoring homeowner including color night vision, color night vision on-event, deterrent spotlight and siren. The camera features a high-resolution 2 MP image sensor with WDR (Wide Dynamic Range) for crisp and clear, live and recorded video, and looks great no matter the time of day.

For fast and reliable installation, the camera supports WiFi and Ethernet network connectivity and when Ethernet is not online, WiFi is used automatically, helping ensure that recording continues. Additionally, it can be powered by Ethernet (PoE) or AC mains power. The optional backbox helps with camera mounting by keeping cables safe and securely hidden, and it looks attractive on the home.

Optional CAMWE-WOBB
Use the backbox to hide
cables and connections

First Alert HD Video Doorbell

The video doorbell delivers advanced features, capability, and reliability that customers expect in their connected home. Homeowners can greet visitors, keep track of package deliveries, and monitor general activity outside the doorway from any location. With advanced event detection for meaningful notifications, the doorbell offers leading video quality and enhanced performance.

Along with general-purpose motion detection, the doorbell includes people, vehicle, animal and package detection. The sound detection feature can also alert homeowners to a loud sound outside the home.

Dual-band 2.4 GHz and 5 GHz WiFi connectivity provides flexibility and range performance while simplifying the installation. The HD video doorbell includes a grey and white trim ring that blends well with existing home colors. It is made of a UV-resistant material, designed to prevent environmental wear in extreme weather conditions.

First Alert HD Indoor Camera

The First Alert indoor security camera allows users to monitor the interior of the home through live or recorded video. Homeowners can keep an eye on pets, kids, elderly family members, or guests with crystal-clear 2K resolution and enhanced night vision. This cutting-edge device is equipped with advanced event detection capabilities, whether it's a person, a pet, or a vehicle in the garage, delivering meaningful notifications.

The indoor camera captures 1080p video and offers a way to ensure privacy with an automated privacy shield, controllable through either the camera or the Total Connect App. Subscription-based video storage plans that are offered provide the opportunity to expand RMR growth for your business. The camera integrates with our ProSeries PROA7PLUS panel and PROWLTOUCH wireless touchscreen offering on screen video streaming.
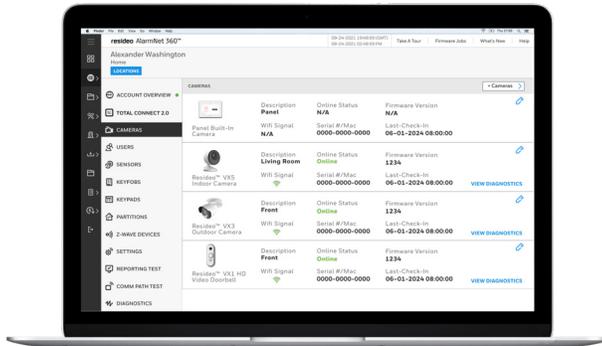

Anytime from anywhere access

Total Connect 2.0
Stay connected with HD video viewing and advanced event detection

Homeowners use the Total Connect 2.0 app to view live video, video event clips, camera configuration details, and more. Using the TC2 app, homeowners can control their connected home – security system, locks, and other devices – through one easy-to-use app.

Resideo Total Connect 2.0 App for Homeowners

AlarmNet 360®
Manage customer accounts anytime from anywhere

The AlarmNet 360 app and website enable anytime, anywhere account support for the VX Series. Dealers can remotely create and manage accounts, troubleshoot, diagnose connectivity and configuration issues and more via a web browser, iOS or Android device.

AlarmNet 360 App for Dealers

Bring your customers to the next level of performance
