

TrueZONE[®] Damper

The next generation of dampers are here.

Honeywell Home TrueZONE[®] Damper is a direct replacement for today's legacy dampers, and the intuitive design speeds installation and checkout with less troubleshooting.

Simple, Easy And Effective Control

For both zoning and ventilation applications, TrueZONE Dampers are the ideal choice. Installation has been designed with the technician in mind, and the quiet, efficient operation helps ensure satisfied customers for years to come.

The TrueZONE Damper is a two-position, 24-VAC, power-close, spring-return damper with a built-in actuator, giving you everything you need in one easy-to-install unit. Round and Rectangular models are available in a variety of sizes.

TrueZONE Forced Air Zoning Damper

Power closed/spring return open damper.

Outstanding Performance

This damper was specifically designed with R8 insulation specification in mind to contribute to energy savings and help the system pass efficiency audits. Best of all, it helps eliminate hot and cold spots, the biggest cause of callbacks. The improved internal design creates a slower return that ensures a quiet operation.

Installation Made Easy

For fast, accurate installation with no callbacks, the TrueZONE Damper has you covered with a range of features that simplify installation in most applications:

- **Adjustable Range Stops** — Easy to understand and set by utilizing a push-in lever. They're used to bleed air into the zones which helps lower pressure and reduce noise.
- **Push-In Terminals** — The same easy wiring design used on TrueZONE Panels. No tools needed, has space for two wires.
- **Taping Flange** — Lets you position insulation under it before sealing with foil tape.
- **Mechanical Position Indicator** — Easy viewing through a clear window.
- **LED Indicator Lights** — Red indicates the damper is closed and green indicates open (used in 3-wire applications)

TrueZONE Dampers

More than 120 variations are available. The most common are listed here.

| ROUND SUPPLY DAMPERS – 5" – 20" | | | |
|--|----------|-----------|----------|
| ARD6TZ | ARD10TZ | ARD12TZ | ARD14TZ |
| Rectangular Supply Dampers – 6 x 6 - 24 x 24. Motor is mounted on second dimension. | | | |
| ZD10x8TZ | ZD12x8TZ | ZD14x8TZ | ZD16x8TZ |
| ZD18x8TZ | ZD20x8TZ | ZD20x10TZ | ZD24x8TZ |

Built To Last

Install it and forget it. The TrueZONE Damper actuator is constructed with high-temperature outer plastics, an all-metal drive train and Teflon®-coated springs. All parts are backed by a 5-year warranty. Simply put, you're getting a premium product without paying a premium price.

Start Today

Customers are seeking the comfort and energy savings of zoning. If you already offer zoning, use the TrueZONE Damper to save installation time and make more profits per job. If you don't offer zoning, the complete TrueZONE lineup, including the TrueZONE damper, make it an easy choice for growing your bottom line.
