

WHOLE-HOUSE EFFECTIVENESS

While portable air cleaners can provide a level of effectiveness in individual rooms, the Honeywell Home F300 Electronic Air Cleaner works with your heating and cooling system to filter the air going through your duct system.

As air re-circulates, the F300 Electronic Air Cleaner can capture up to 98% of airborne particles that pass through it – when compared to a standard one-inch furnace filter. And unlike portable air cleaners, the F300 Electronic Air Cleaner is installed out of sight to work quietly and invisibly.

DUST

POLLEN

PET DANDER

MOLD SPORES

SMOKE

CERTAIN BACTERIA

CLEAN. UNSEEN. SERENE.

Imagine having dust, pollen, mold spores and certain bacteria filtered by a proven, dependable air cleaner that's not only good for the environment, but is also quiet and out of sight.

With the F300 Electronic Air Cleaner, you won't have to imagine. Just sit back and enjoy.

Built and Backed by Resideo

Along with Resideo's 5-year warranty, the F300 is backed by our exclusive UltraClean Coil Guarantee.

Over time, the inner workings of your heating and cooling equipment can become coated with efficiency-robbing dust. The Honeywell Home F300 Electronic Air Cleaner captures particles before they can accumulate on critical parts in the duct system and the Clean Coil Guarantee is your assurance that system efficiency and optimum comfort will be maintained.

With its UltraClean Coil Guarantee, Resideo guarantees the homeowner that the cooling coil will stay clean or we will help pay for cleaning.*

Honeywell Home F300 Whole-House Electronic Air Cleaner

Smart, Low maintenance and Eco-Friendly

F300 Whole-House Electronic Air Cleaner

Eco-Friendly

The Honeywell Home F300 Electronic Air Cleaner features a reusable filter, so you won't need to replace your furnace filter each month. Simply wash the F300 Electronic Air Cleaner's high performance filter cell every 6 to 12 months and you'll never need to buy another filter.

Plus, the F300 Electronic Air Cleaner helps save you money by keeping your heating and cooling equipment clean and extending its service life. And because it is designed to maintain excellent airflow, you can count on cleaner air continuing to circulate in your home.

This chart shows why the Honeywell Home F300 Electronic Air Cleaner is the last air cleaner you'll ever need.

		F300 ELECTRONIC AIR CLEANER	F100 AIR CLEANER	F200 AIR CLEANER	STANDARD 1" FILTER
Particle Size	MERV Rating	12-16**	11	13	1 to 4
	0.3 - 1 micron	81%	32%	63%	0-5%
	1 - 3 micron	93%	72%	90%	5-15%
	3 - 10 micron	99%	96%	97%	10-20%

*Based on independent lab testing. **Equivalent rating based on initial efficiency. EACs do not qualify for a true MERV rating.

Simply Smart

To sum it all up, the Honeywell Home F300 Electronic Air Cleaner:

- is one of the most effective air cleaners available saves you money through efficient operation
- saves you money - you'll never have to buy a replacement filter
- saves you the time and hassle of seeking out replacement filters

DOES AIR REALLY NEED TO BE CLEANED?

According to the Environmental Protection Agency, indoor air can be up to five times more polluted than outdoor air. A typical one-inch furnace filter traps larger particles to protect your heating and cooling system, but doesn't trap many of the invisible particles.

The F300 Electronic Air Cleaner features advanced three-stage filtration technology that efficiently traps the majority of airborne particles as they pass through the system.

By filtering the air with minimal air-flow restriction, the F300 Electronic Air Cleaner can keep your heating and cooling equipment operating at peak efficiency.
