

USER'S MANUAL SMOKE ALARM

AC Powered Ionization Smoke Alarm with Battery Back-up, Silence and Latching Features

Model 9120BA
120V AC ~, 60 Hz, 0.04A

IMPORTANT! PLEASE READ CAREFULLY AND SAVE
This user's manual contains important information about your Smoke Alarm's operation. If you are installing the Smoke Alarm for use by others, you must leave this manual — or a copy of it — with the end user.

All First Alert® and BRK® Smoke Alarms conform to regulatory requirements, including ULCS531 and are designed to detect particles of combustion. Smoke particles of varying number and size are produced in all fires.

Ionization technology is generally more sensitive than photoelectric technology at detecting small particles, which tend to be produced in greater amounts by flaming fires, which consume combustible materials rapidly and spread quickly. Sources of these fires may include paper burning in a wastebasket, or a grease fire in the kitchen.

Photoelectric technology is generally more sensitive than ionization technology at detecting large particles, which tend to be produced in greater amounts by smoldering fires, which may smolder for hours before bursting into flames. Sources of these fires may include cigarettes burning in a couch or sofa.

For maximum protection, use both types of Smoke Alarms on each level and in every bedroom of your home.

INTRODUCTION

Thank you for choosing BRK Brands, Inc. for your Smoke Alarm needs. You have purchased a state-of-the-art Smoke Alarm designed to provide you with early warning of a fire.

Smart Technology designed to help reduce unwanted or nuisance alarms.

Single Button Test/Silence eliminates confusion. Depending on what mode the alarm is in, pushing the button provides different functions such as testing the alarm, silencing the alarm, re-testing the alarm when in silencing mode, or silencing the Latching Feature.

Latching Alarm Indicator easily identifies initiating alarm even after the alarm condition has subsided.

Perfect Mount System includes a gasketless base for easy installation and a new mounting kit that keeps the alarm secure over a wide rotation range to allow for perfect alignment.

Easy Installation/Maintenance features include a large opening in the mounting base to allow access to wiring. A battery drawer allows for easy battery replacement without removing the alarm from the ceiling or wall.

Improved UV Resistance keeps the alarm from discoloring over time.

FIRE SAFETY TIPS

Follow safety rules and prevent hazardous situations: 1) Use smoking materials properly. Never lit remain near lighters or lighters away from children. 2) Store flammable materials in proper containers. 3) Keep electrical appliances in good condition and don't overload electrical outlets. 5) Keep stoves, burners, and space heaters properly maintained. 6) Never leave anything cooking on the stove unattended; 7) Keep portable heaters and open flames, like candles, away from flammable materials; 8) Don't let rubbish accumulate. 9) Keep areas clean, and test them weekly. Replace alarms immediately if they are not working properly. Smoke Alarms that do not work cannot alert you to a fire. Keep at least one working fire extinguisher on every floor, and an additional one in the kitchen. Have fire escape ladders or other reliable means of escape from an upper floor in case stairs are blocked.

BEFORE YOU INSTALL THIS SMOKE ALARM

Important! Read "Recommended Locations for Smoke Alarms" and "Locations to Avoid for Smoke Alarms" before beginning. This unit monitors the air, and when smoke reaches its sensing chamber, it alarms. It can give you more time to escape before fire spreads. This unit can ONLY give an early warning of developing fires if it is installed, maintained and located where smoke can reach it, and where you reside. See "Limitations of Smoke Alarms" in this manual. This unit will not sense gas, heat, or flame. It cannot prevent or extinguish fires.

Understand The Different Type of Smoke Alarms
Battery powered or electrical? Different Smoke Alarms provide different types of protection. See "About Smoke Alarms" for details.

Know Where To Install Your Smoke Alarms
Fire Safety Professionals recommend at least one Smoke Alarm on every level of your home, in every sleeping area, and in every bedroom. See "Limitations of Smoke Alarms" for details.

Know What Smoke Alarms Can and Can't Do
A Smoke Alarm can help alert you to fire, giving you precious time to escape. It can only sound an alarm once smoke reaches the sensor. See "Limitations of Smoke Alarms" for details.

Check Your Local Building Codes
This Smoke Alarm is designed to be used in a typical single-family home. It does not meet requirements for boardings, hotels or motels. See "Special Compliance Considerations" for details.

⚠️ DANGER! ⚠️

ELECTRICAL SHOCK HAZARD. Turn off the power where the Smoke Alarm is installed before removing it from the mounting bracket. Failure to turn off the power first may result in serious electrical shock, injury or death.

⚠️ WARNING! ⚠️

This unit will not alert hearing impaired residents. It is recommended that you install special units which use devices like flashing strobe lights to alert hearing impaired residents.

Installation of this unit must conform to the electrical codes in your area; Articles 210 and 300.1 (B) of NFPA 70 (NEC), NFPA 72 (NFPA Code), NFPA 704 (IFC), NFPA 97 (IBEC), NFPA 98 (IFC), NFPA 101 (IFC), NFPA 1031 (IFC), NFPA 1033 (IFC), NFPA 1034 (IFC), NFPA 1035 (IFC), NFPA 1036 (IFC), NFPA 1037 (IFC), NFPA 1038 (IFC), NFPA 1039 (IFC), NFPA 1041 (IFC), NFPA 1042 (IFC), NFPA 1043 (IFC), NFPA
