

1.9 Select setup

Before connecting to your Wi-Fi network, you need to set initial thermostat options to define your heating/cooling system:

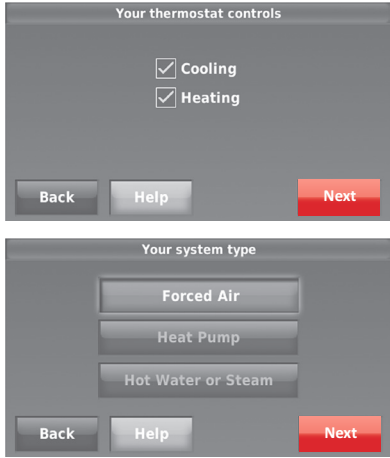

- Language
- Home or business

Follow prompts on the screen to select appropriate options.

- 1.9a Touch the language you want the thermostat to display, then touch **Next**.
- 1.9b Select Home or Business application, then touch **Next**.
- 1.9c Touch **Next** or name the thermostat location.

- 1.9d Select what your thermostat will control and touch **Next**.
- 1.9e Select your system type and touch **Next**.
-  View the Heating and Cooling System Type video at honeywellhome.com/support
- 1.9f The system type determines other setup options. Use the checklist from Step 1.6 to help make additional selections after you select system type.
- 1.9g Touch **Next** after making selections on each screen.
- 1.9h Touch **Done** on the last screen. The thermostat displays an option to connect to your Wi-Fi network.

2 Connect to your Wi-Fi network

2.1 Connect the Wi-Fi network

 **Important!** Wi-Fi connection is required for voice.

After touching **Done** on the final screen of the initial set up (Step 1.9h), the thermostat displays an option to connect to your Wi-Fi network.

- 2.1a Touch **Yes** to connect the thermostat to your Wi-Fi network. The screen displays the message “Searching for wireless networks. Please wait...” after which it displays a list of all Wi-Fi networks it can find.

Note: If you cannot complete this step now, touch **I'll do it later**. The thermostat will display the home screen. Complete this process by selecting **MENU > Wi-Fi Setup**. Continue with Step 2.1b.

- 2.1b Touch the name of the network you want to use. The thermostat displays a password page.
- 2.1c Using the keyboard, touch the characters that spell out your home network password.
- 2.1d Touch **Done**. The thermostat displays “Connecting to your network. Please wait...” then shows a “Connection Successful” screen.
- Note:** If your home network is not shown on the list, touch **Rescan**.
- 2.1e Touch **Next** to display the registration information screen.

Getting Help

If you get stuck...

At any point in the Wi-Fi connection process, restart the thermostat by removing the thermostat from the wallplate, wait for 5 seconds, and snap it back into place. From the home screen, touch **MENU > Wi-Fi Setup > Choose a Network**. Continue with Step 2.1b.

Need more help? Find additional information in the *User Guide*.

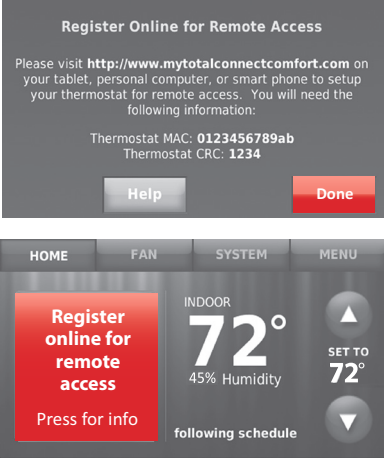

-  This thermostat works with common 24 volt systems such as forced air, hydronic, heat pump, oil, gas, and electric. It will not work with millivolt systems, such as a gas fireplace, or with 120/240 volt systems such as baseboard electric heat.
-  **MERCURY NOTICE:** Do not place your old thermostat in the trash if it contains mercury in a sealed tube. Contact the Thermostat Recycling Corporation at www.thermostat-recycle.org or 1-800-238-8192 for information on how and where to properly and safely dispose of your old thermostat.
-  **NOTICE:** To avoid possible compressor damage, do not run air conditioner if the outside temperature drops below 50°F (10°C).

3 Register online for remote access

To register your thermostat, follow the instructions on Step 3.1.

Note: The Register Online screen remains active until you complete registration and/or touch **Done**.

Note: If you touch **Done** before you register online, your home screen displays an orange alert button telling you to register. Touching that button displays registration information and an option to snooze the task.

To view and set your Wi-Fi thermostat remotely, you must have a Total Connect Comfort account. Follow the instructions below.

-  View the Wi-Fi Thermostat Registration video at honeywellhome.com/wifi-thermostat

3.1 Open the Total Connect Comfort web site

Go to www.mytotalconnectcomfort.com

3.2 Login or create an account

If you have an account, click **Login**
– or –
click **Create An Account**.

- 3.2a Follow the instructions on the screen.
- 3.2b **Check your email** for a response from My Total Connect Comfort. This may take several minutes.

Note: If you do not receive a response, check your junk mailbox or use an alternate e-mail address.

- 3.2c **Follow activation instructions** in the email.
- 3.2d Log in.

3.3 Register your Wi-Fi thermostat

After you are logged in to your Total Connect Comfort account, register your thermostat.

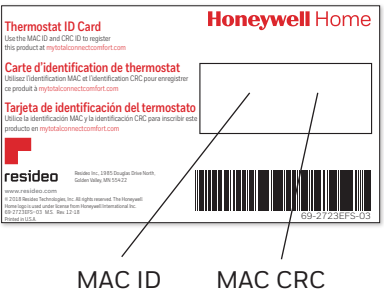

- 3.3a Follow the instructions on the screen. After adding your thermostat location you must enter your thermostat’s unique identifiers:

- MAC ID
- MAC CRC

Note: These IDs are listed on the Thermostat ID Card included in the thermostat package. The IDs are not case sensitive.

- 3.3b Notice that when the thermostat is successfully registered, the Total Connect Comfort registration screen will display a **SUCCESS** message.

You can now control your thermostat from anywhere through your laptop, tablet, or smartphone.

Getting started with voice

For information on how to control your thermostat with voice, see the included “Talking with your Thermostat” card.

Note that the voice commands for this thermostat are in English only.
